

## James Family July 2017 Newsletter

This week marks our one year anniversary of living in Tanzania! It has been an amazing year for witnessing God's goodness and faithfulness being poured over us. The low times have shown our great need to keep the gospel always in focus, and any victory we've had has been because of God's grace and mercy. We are extremely excited looking forward to the next year to see how our language grows, relationships develop and ministry visions turn into reality.

We see strides in our ability to communicate, but we still have a long way to go. Our family left Dar for two weeks to go to Morogoro, where we stayed on campus at a language school. This allowed us to study everyday from 8a-4p, and remove some of our distractions from home. We learned a lot, and had great family time on campus!

God continues to open doors for many ministry opportunities. We are in the planning phase of working with missionaries and Tanzanians who are wanting to start a mobile medical clinic! This has been something we have dreamed about for a long time, and now to see God already working out the details has been so exciting! There is a building already provided, plus local pastors who are already ministering to the areas we will be visiting. Many more details to come, but for now, Brittany is starting by registering her nursing license with the government, this will

### Highlights:

- One year in Tanzania!
- Language School
- Medical Clinic
- Inters trip to 4 villages

### Prayer Request:

- Continued language learning
- Medical clinic expansion
- Inters continued spiritual growth

cost around \$300, and can only move as fast as the office can process her paperwork.

The Grace Missions interns just returned from a week long trip to Dodoma which is about 8 hours from Dar. Unfortunately, I was unable to go on this trip, but it was a great time for outreach as they went to four different villages. They shared helpful information on farming and raising animals, but more importantly they started bible studies and taught an average of 30 people in each village how to do Disciple Making Movement Bible studies. There were some people who showed a lot of interest in continuing these Bible studies, so several of the interns will be returning soon to the villages to follow up and see how they are progressing. Please pray that God's word will take hold in these villages, and as they study the Bible together people would come to Christ and lives would be changed. We are so thankful for all of you! Thank you so much for your support and prayers for what God is doing here in Tanzania!
